

St. John's Outdoor Learning Framework

As part of our School Improvement Plan for 2021-2022, we looked at how we could implement outdoor learning across our curriculum. Here is an overview of how we do this.

1.

Learning about the outdoors through for example Eco School Activities, Social Studies topics and our Laudato Si R.E. programme.

2.

Learning in the outdoors by taking areas of the curriculum such as Art & Design, Literacy, Numeracy & Maths and Science into an outdoor setting.

3.

Learning how to explore & play in the outdoors where each class takes part in a 6-week block of forest schools activities at Loch Wood.

We use a variety of locations for this including Blackwood Park, the school grounds and garden, as well as Blackwood Estate.
